SKIN

SKIN é uma iniciativa ambiciosa na área de Cadeias Curtas Alimentares, que visa organizar o conhecimento existente, fomentar a inovação orientada para a procura, construir uma colaboração a longo prazo entre agricultores e cooperativas europeias, facilitar o envolvimento das partes interessadas, e promover a inovação através da investigação orientada para a procura.

SKIN FOOD: A PLACE OF TRUST
WHERE PRODUCERS AND SOCIETY MUST MEET

 <p>CHAIN BUILDING A NEW COMMUNITY OF RELATIONS Short Food Supply Chains (SFSC) are characterized by maximum one intermediary between producer and consumer.</p>	 <p>EXCHANGE LEARNING, SHARING, INNOVATING The food journeys from farms to citizens' forks have multiplied across Europe and no common path was followed. It's time for them to meet!</p>	 <p>NETWORK MANY LITTLE CLUMPS MAKE A BIG FIELD Creating a European network of 100 good practices connected through 25 Regional Nodes, overcoming knowledge divide and supporting bottom-up innovation initiatives.</p>
 <p>PROXIMITY FARMS, FOOD AND SOCIETY: TOGETHER, CLOSER Proximity has a prominent role in SFSCs, both geographical and social. Ultimately, SFSCs are about the rebuilding of trustful relationships and common values.</p>	 <p>NATURE PROMOTING CIRCULARITY AMONG FARMERS, SOCIETY AND ENVIRONMENT A multi-actor approach, involving key players beyond primary agrifood actors, will support the co-creation of an innovative pathway to care for nature, food and local environment.</p>	 <p>LAND USE MAKING A BETTER USE OF OUR LAND SFSCs have a positive impact on the environment and on many aspects including human health and wellbeing, economic and food supply resilience.</p>
