EFSA “DO CAMPO AO PRATO”

A missão da EFSA é contribuir para a segurança da cadeia alimentar da UE, fornecendo aconselhamento científico aos gestores de risco, comunicando os riscos ao público e cooperando com os Estados-Membros e outras partes interessadas para disponibilizar um sistema de segurança alimentar coerente e fiável na UE.

The infographic illustrates the food chain from field to fork. It features a navigation bar with the EFSA logo and the text 'European Food Safety Authority' and 'Science protecting consumers'. The main content area shows a dotted line representing the food chain, starting from a blue dot at the top, passing through a field with a tractor, and ending at a fork. The background is decorated with yellow and orange triangles. At the bottom, the EFSA logo and the tagline 'Trusted science for safe food' are displayed.

gap between science and the consumer.
